AsgardMobile v2.21.0 / Desktop Application v2.21.0

KATANA
FACILITY MANAGEMENT

Mobile Applications

AsgardMobile 2.0 - Update pending resolution of notifications issues. Publish date TBD.

Maintenance/Performance/Errors

We made various enhancements and fixes, in several areas of the system, arising from user reports, automated reporting, and performance records/logs. These changes include, but are not limited to:

- Apple, Optimization of PM Completion Screen in Dark Mode
- Change Error text for better readability
- Optimize Log In screen

My Work Orders Screen, New Filter Capabilities

By customer request, we have added filters to the My Work Order screen. Users can now filter by the following parameters to focus their work:

- Location
- Status
- Reporter

Unlike the Dispatch screen, the My Work Order filter will reset when the user leaves the list to ensure that any new work orders that might have come in are immediately visible.

Maintenance/Performance/Errors

We made various enhancements and fixes, in several areas of the system, arising from user reports, automated reporting, and performance records/logs. These changes include, but are not limited to:

- Fix to Lost & Found Unique ID generator
- All Grids, Export to Excel default to XLSX
- Optimize new Stock Item wizard
- Optimize Dashboard Print
- API Work Order Create, Expand Note size
- Guest Incidents, Optimize New Incident form for split screen

Locations

New Location Type: Lock-Off

In an effort to correctly label locations in Asgard, we have added the new location type: Lock-Offs. This new Location Type can be added to all appropriate existing and new locations.

The screenshot shows the 'Location Edit' form. The 'Type' dropdown menu is open, showing options: 'Unit', 'Unspecified', 'Unit', 'Floor', 'Building', 'Phase', 'Public Areas', and 'Lock-Off'. The 'Lock-Off' option is highlighted. Other fields include 'Path', 'Name' (#101 (1 Bdrm 2 Double Suite)), 'Location Display' (Distinct Name), 'Alternate Name' (101), 'Full Path' (Buildings, Guest Tower, Floor 1, #101 (1 Bdrm 2 Double Suite)), 'Guest Name' (Macias), 'Occupied State' (Occupied), 'Revenue Sequence', 'External Location ID' (101), 'Unit ID For Import', and 'VR ID'.

Assets & Reserves

Expense/Expense Series, Limit Associated Asset Types List by Account

To help streamline the creation of new One Time Expenses and Expense Series, the Associated Asset list will now limit to the Asset Types associated with the Account the Expense or Series is being created for.

Enhance RPR Detail Screen

We have rearranged and added additional pieces of information to the RPR detail screen for a more informed request workflow.

The screenshot shows the 'RPR #515' detail screen. It includes tabs for 'Welcome Page', 'Active Reserves Purchase Requests', and 'RPR #515'. The 'Request Approvals' tab is active. Fields include 'Entered' (5/25/2021), 'By' (blank), 'Approvals' (Approved), 'Summary/Purpose' (Ecolab Supplies), 'Account' (Reserve Purchase Expenses), 'Expense' (Annual FF&E (In-Suite) (8/23/2021)), 'Expected Delivery Date' (8/23/2021), 'Project Code' (BQR20-028), 'G/L Accounts' (2637.0355.302.000.013.54070), 'Budget or Forecast Amount' (\$6,304), 'Combined RPR Amount' (\$6,723.41), 'Balance Committed' (\$419.41), 'Budget Actuals' (\$7,000.00), and 'Budget Remaining' (\$696.00).

You will now find the following changes:

- **NEW!** Actual Expense Spend details
- Better Budget detail placement and labelling

RPR Search Screen Enhancements

For historical research, users will now be able to search by Project Code on the RPR Search screen.

The grid on this screen has also been upgraded for enhanced sort, filter, search, and group functionality.

The screenshot displays the 'Reserves Purchase Request Search' interface. At the top, there are search criteria fields: 'RPR #' and 'Keywords'. Below these are date range selectors for 'Entered From' and 'To', both set to '8/16/2021' with a 'Days Ago' dropdown. There are also fields for 'Accounts' and 'Vendor' (set to 'Any'), with 'Select' and 'Clear' buttons. A 'Project Code' field is highlighted with an orange box. Below the search criteria, there are 'Results' and 'New Reserves Purchase Request' buttons. The main part of the screen is a table with columns: 'RPR #', 'Approval St...', 'Approval Cha...', 'Account', 'Entry Date', 'Originating ...', 'Summary', 'G/L Accounts', 'Project Code', 'Vendor', 'Vendor Phone', and 'Total'. The table has a header row and one data row, both highlighted in green. The data row contains placeholder text 'RPR #' and 'Approval St...'. The table is also highlighted with an orange box.

RPR #	Approval St...	Approval Cha...	Account	Entry Date	Originating ...	Summary	G/L Accounts	Project Code	Vendor	Vendor Phone	Total
RPR #	Approval St...	Approval Cha...	Account	Entry Date	Originating ...	Summary	G/L Accounts	Project Code	Vendor	Vendor Phone	Total

RPR Permissions, Ability to Withdraw

By customer request, we have added a new permission flag to allow authorized customer users to Withdraw RPRs from the Approval workflow. Historically, this capability was limited to Systems Administrators and the requesting user.
