Minimizing Project Work Orders Called into Engineering Dispatch

Identify most common Projects that show up as Standard Work Orders

↓

Create Projects in Asgard

↓

Provide a spreadsheet for Housekeeping that includes all common Projects and space to enter locations

→

Housekeeping Supervisors note the location for any project work identified during inspection

↓

Housekeeping Supervisor returns the spreadsheet to Engineering/Housekeeping Dispatcher at end of shift

→

Dispatcher enters the location for identified project tasks in the appropriate Project

→

Project work is assigned as resources become available
